Fiber HDMI 2.0 30m na koturu,4K Aktivni Optički Cable (AOC) za video i audio

Šifra: 031477

Kategorija proizvoda: Kablovi HDMI

Proizvođač: N/A

Cena: **9.900,00** rsd.

Brend	Xwave
Model	Fiber HDMI 2.0 30m
Naziv	Fiber optic HDMI 2.0 30m 4K 4-kanal multimode OM3 Aktivni Optički Cable (AOC) za video i audio
Dužina kabla	30m
Propusni opseg	18 Gbps (HDMI 2.0)
Rezolucija	4K (3840 x 2160 /60 fps)
- Full 4	4:4 resolution with no chrominance undersampling for all lengths.
Verzija HDMI	High Speed HDMI 2.0
Maximum transfer rate	18 Gbps.
	3D 4K at 25 images/second.
Podržava	CEC, HEC, HARC, HDR, HDR10, Dolby Vision and Dolby Atmos technologies.
Ethernet	100 Mbps.

Audio	32 channels / 1536 Khz.
	Audio Return Channel (ARC).
Kompatibilno	sa starijim verzijama poput HDMI 1.4.
Primena	Playstation, Xbox, Nintendo, Raspberry Pi, DTT decoders, Android TV, Streaming devices, DVD / Blu-Ray players, LED monitors, HD / 4K TVs, projectors...
Ostalo	- 4K/60Hz, Ultra HD, High Speed 18 Gbps with Ethernet, 30AWG / 2.0V 19+1CCS Tinplate, 128B OD6.0MM, 1.5m nickel plate
	- Robust, watertight protective shell to safeguard connectors.
	- Underneath the sheath is an ultra-strong metal mesh to protect the inner fibre optic conductors from damage to the cable.
- TPU sheath (Ø6.00 mm) which gives the cable the following properties	good environmental erosion resistance, protection against ultraviolet radiation from sunlight, low temperature flexibility down to -40°C, resistance to water, acid and oil absorption, outstanding abrasion resistance, good chemical resistance and flame retardancy.
	- This is a Unidirectional HDMI connection. For correct operation, the connector marked "Source" must be connected to the signal transmitter (console, computer, DVD/Blu-Ray player...) and the connector marked "Display" to the receiver (screen, monitor...).
	- The High Speed HDMI 2.0 active optical cable uses fiber optic technology to carry the HDMI digital signal.
	- This means that the signal can be carried much further than with a traditional copper cable (up to 100m) and reduces the risk of EMI/RFI interference.
	- HDMI AOC cables also have dedicated copper power conductors inside, so no external power source is required.
	- Perfect for long distance video using HDMI-SDI converters, the SDI signal is converted to an HDMI video signal and/or vice versa by using external converters.
	- It is the ideal solution for connecting devices with HDMI output (computers, HDMI cameras...) to professional SDI equipment.
	- Also to connect two SDI equipments through two HDMI-SDI converters using the HDMI cable to make the transport of the signal during the long distance.
	- Waterproof zaštita kabla
	- CUP zaštita konektora od spoljašnjeg uticaja
Konektori	Gold-plated contacts.
	Black metal connectors.
Zaključak	"UHD HDMI" kabl je neophodan ukoliko želite da iskoristite pun potencijal svog 4K ili 8K televizora i povezanih uređaja (kao što su PS5, Xbox Series X, ili moderni PC), dok su stariji kablovi ograničeni na niže rezolucije i frekvencije osvežavanja. Svi HDMI kablovi su unazad kompatibilni, ali kvalitet signala će biti ograničen najslabijom karikom u lancu (kablom, portom na TV-u ili portom na izvornom uređaju).
Uvoznik	NT Company D.O.O.
Zemlja porekla	Kina
Prava potrošača	Zagarantovana sva prava kupaca po osnovu zakona o zaštiti potrošača.
